

Boost your Bottom Line

Battlefield Sports presents....

Live Gaming

This is not your Grand-pa's Laser Tag.

This is live gaming taken indoors. Imagine offering gamers a fully licensed sports bar, DJ music, disco lighting, pool tables & Sports Telecasts. Plus the latest in combat entertainment: Battlefield LIVE.

Battlefield LIVE indoor gaming is a radical departure from yesterday's indoor laser tag.

Unlike old fashioned laser tag there are no "individual rankings".

Rather gamers get their own statistics, in real-time, such as K/D (kill/death ratio) and W/A (wound/assist ratio) as well as Accuracy Percentage and lots more. Just like a LIVE computer game.

We have a range of gaming guns so you can suit your theme: sci-fi or military. Our metal gaming guns are great for teens and young adults.

Take the game indoors for the

perfect location for a corporate team building event, product launch, cocktail party, summer camp activity, bar mitzvah or birthday party.

This gear is *flexible*. Power-down the **infrared** for indoors, promote your venue at the local Festival & set on outdoor mode for a range of 330ft (100m).

YOUR TICKET TO A NEW ATTRACTION

Battlefield LIVE suits indoor deployments from small fire teams to huge platoon engagements.

This is a great choice as a bolt-on to Family Entertainment Centers.

The gaming guns include the latest SATR electronics system, integrated head and barrel mounted infrared Optik sensors and Predator muzzle flash.

Welcome to the next generation
Here's how you can boost your sales using our brand of live gaming...

-  *Patented digital technology: SATR.*
-  *SATR gives you real-time hit feedback (so you know when you've got 'em) & real time statistics.*
-  *No royalties.*
-  *No complicated installation - this is literally a turnkey solution.*
-  *100% portable.*
-  *Designed, assembled & supported in Australia*

“We are getting plenty of return business for Laser Tag and are especially pleased how Battlefield LIVE has complimented the existing Ten Pin Bowling business. Rather than detract from the bowling numbers, it seems to have boosted them!”

ACCESSORIES

- ✓ **Master Controller.** This is a portable device that controls everything. It can start/end everyone, set game times, and more! Includes a re-chargeable battery.
- ✓ **Battle Box.** This ingenious box lets gamers respawn or resupply ammo for themselves. Normally you would place one battle box in each team's base. The box can do timed re-spawns and/or ammo, a fixed number of re-spawns and/or ammo reloads per game, or unlimited number of re-spawns/reloads. Includes re-chargeable battery.
- ✓ **Head-wraps.** These are great for hygiene - they go under the headbands. Each gamer gets a fresh head-wrap, designed to be commercially washed/dried. Colours/ Patterns: Red & Blue
- ✓ **Cobra Spares Kits.** A basic spares kit for easy maintenance, including items such as a spare display, sensor, buttons, LEDs, and switches.
- ✓ **Battery Chargers.** This is a versatile commercial-grade battery charger. Simple push-button programming. Also included is a custom jack connector (so you don't have to take the batteries out of the phaser to re-charge).
- ✓ Prices are in Australian dollars. Australians please add GST.
